

Policy for supporting students with medical conditions and for the administration of medicine

Instow Community Primary and Preschool

1. The staff of Instow Community Primary School wishes to ensure that students with medical needs receive proper care and support. Our intention is to ensure that students with medical conditions should have full access to education including trips and PE. The governing body will ensure that staff are supported, trained and competent before they take on the responsibility of supporting students with medical conditions.
2. The school's insurance will cover liability relating to the administration of medication.
3. Lucy Mardling, Katy Graves and Maria Williams are responsible for ensuring the following:
 - Procedures to be followed when notification is received that a student will be attending who has a medical condition (including transitional arrangements between schools, re-integration or when students' needs change; arrangements for staff training or support) IHCP, PEEPs and staff training
 - Procedures to be followed when a student moves to the school mid-term or when a student has a new diagnosis - is an IHCP or PEEP needed followed by staff training?
 - *procedures for home-to-school transport*
 - *procedures for defibrillator*
 - *procedures for asthma inhalers/spacers*
 - *procedures for adrenaline auto-injectors (allergy medication and administration)*
 - *Procedures for epilepsy medication administration*
4. The above procedures will be monitored and reviewed by Katy Graves and Maria Williams
5. Where identified as being necessary, Individual Health Care Plans (IHCP) will be developed between Instow Community Primary and Preschool, healthcare professionals and parents so that the steps needed to help a student manage their condition and overcome any potential barriers to getting the most from their education are identified. The IHCP will include:
 - a) The student's medical condition, its triggers, symptoms, medication needs and the level of support needed in an emergency. Also it must include any treatments, time, facilities, equipment, testing and access to food or drink (where it is used to manage their condition), dietary requirements and

environmental issues such as crowded corridors and travel time between lessons

- b) Specific support for the student's education, social and emotional needs, such as how will absences be managed, requirements for extra time to complete exams, use of rest periods or counselling sessions
 - c) Who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support from a healthcare professional
 - d) Cover arrangements and who in the school needs to be aware of the student's condition and the support required including supply staff
 - e) Arrangements for written permission from parents for medication
 - f) Arrangements or procedures for school trips or other school activities outside the normal timetable; completion of risk assessments for visits and school activities outside the normal timetable
 - g) The designated individuals to be entrusted with the above information
 - h) Procedures in the event of the student refusing to take medicine or carry out a necessary procedure
6. Lucy Mardling will have the final decision on whether an Individual Health Care Plan is required.

Students with asthma

7. Instow Community Primary and preschool has decided to hold an emergency inhaler and spacer for the treatment of an asthma attack.
8. Katy Graves and Maria Williams will be responsible for ensuring the following:
- Instructing all staff on the symptoms of an asthma attack
 - Instructing all staff on the existence of this policy
 - Instructing all staff on how to check the asthma register
 - Instructing all staff on how to access the inhaler
 - Making all staff aware of who are the designated staff and how to access their help
9. Katy Graves and Maria Williams will be responsible for ensuring that designated staff:
- Recognise the signs of an asthma attack and when emergency action is necessary
 - Know how to administer inhalers through a spacer
 - Make appropriate records of attacks

10. Class teachers will be responsible for the storage, care and disposal of asthma medication.

11. Maria Williams will be responsible for ensuring that there has been written consent from parents for the administration of the emergency inhaler and spacer. The emergency inhaler/spacer will only be available for students who have been diagnosed with asthma and have been prescribed reliever inhaler AND for whom parental consent has been given. This information shall be recorded in the student's IHCP plan.

12. Class teachers or support staff will be responsible for the supervision of administration of medication and for maintaining the asthma register.

13. Class teachers will be responsible for ensuring parents are informed in writing when the emergency inhaler/spacer has been used.

14. **Students with anaphylaxis**

15. Instow Community Primary and Preschool holds an emergency adrenaline auto-injector for the treatment of an anaphylaxis attack for pupils who have been diagnosed with anaphylaxis and prescribed an auto-injector.

16. Katy Graves and Maria Williams will be responsible for ensuring the following:
 - Instructing all staff on the symptoms of an anaphylaxis attack
 - Instructing all staff on the existence of this policy
 - Instructing all staff on how to check the pupil medical register
 - Instructing all staff on how to access the auto-injector
 - Making all staff aware of who are the designated staff and how to access their help
 - Facilitating training for staff on anaphylaxis

17. Katy Graves or other trained staff will be responsible for ensuring that designated staff:
 - Recognise the signs of an anaphylaxis attack and when emergency action is necessary
 - Know how to administer the auto-injectors
 - Make appropriate records of attacks

18. Class teachers will be responsible for the storage, care and disposal of the adrenaline auto-injector.

19. Maria Williams will be responsible for ensuring that there has been written consent from parents for the administration of the emergency auto-injector. The emergency auto-injector will only be available for students who have been diagnosed with anaphylaxis and have been prescribed an auto-injector AND for whom parental consent has been given. This information shall be recorded in the student's IHCP plan.
20. Maria Williams will be responsible for the supervision of administration of medication and for maintaining the pupil medical register.
21. Lucy Mardling, Katy Graves or class teacher will be responsible for ensuring parents are informed when the auto-injector has been used.

The administration of medicine

22. If your child has not previously taken the medication, the first dose must be administered at home to ensure they do not experience an adverse reaction.
23. The Headteacher will accept responsibility in principle for members of school staff giving or supervising a student taking prescribed medication during the day, where those members of staff have volunteered to do so.
24. Any parent/carer requesting the administration of medication will be given a copy of this policy.
 - Prescribed medication will be accepted and administered in the establishment
 - Non-prescription medication will only be accepted and administered in the following circumstances:
 - when a young person has regular headaches,
 - menstrual pain,
 - attending residentials,
 - travelling,
 - toothache,
 - at head teacher's discretion
25. Prior written parental consent is required before any medication can be administered.
26. Only reasonable quantities of medication will be accepted (no more than one week's supply).
27. Each item of medication should be delivered in its original dispensed container and handed directly to the Headteacher or office staff authorised by the Headteacher.
28. Each item of medication should be clearly labelled with the following information:

- Student's name
- Name of medication

- Dosage
 - Frequency of dosage
 - Date of dispensing
 - Storage requirements (if important)
 - Expiry date (if available)

- 29. The school will not accept items of medication which are in unlabelled containers or not in their original container.

- 30. Unless otherwise indicated, all medication to be administered in the school will be kept in the main school office or staffroom fridge and inhalers are stored securely in the pupil's classroom.

- 31. Two members of staff must be present when administering medication to a student. Both staff members must sign the medication log once the medication has been administered.

- 32. Staff administering medicines will record and sign each time a medicine is administered. Written records of all medication administered to every pupil will be held by the school in a secure location and may be made available to parents on request.

- 33. If a pupil refuses their medication, staff will record this, report to parents as soon as possible and follow the protocol laid down in the IHCP.

- 34. Where it is appropriate to do so, students will be encouraged to administer their own medication - if necessary, under staff supervision. Some parents/carers (anaphylaxis auto-injector) will be asked to confirm in writing if they wish their student to carry their medication with them. In the event of a drug which is prescribed but not emergency medicine such as Methylphenidate (Ritalin), students will not be allowed to carry these.

- 35. It is the responsibility of parents/carers to notify the school if there is a change in medication, a change in dosage requirements, or the discontinuation of a student's need for medication.

- 36. Staff who volunteer to assist in the administration of invasive medication will receive appropriate training/guidance through arrangements made with the school's Nurse Service. In pre-school settings arrangements will be made through Primary Care Health Visitors.

- 37. The school will make every effort to continue the administration of medication to a student whilst on activities away from the premises.

38. Instow Community Primary School and Preschool have taken the decision to keep aspirin in a locked drawer in the main school office to give to adults who may be experiencing a heart attack.
