

Instow Community Primary and Pre-School Computing Policy

- Computing is available for all children within the Pre-School
- Computing and technology is taught on an individual, child rota basis during 'Discovery time' and available on some of the afternoon sessions
- The Pre-School teaches computing and coding skills using individual Learning Pads
- Computing is cross curricular and connects to all other aspects of the curriculum
- All software is age appropriate for the Pre-School children
- No child or adult will sit in front of an iPad for more than 20 minutes at any given time
- No child will have unsupervised access to the Internet, although we use the internet and learning platforms to access learning on occasions (e.g. videos)

Policy reviewed June 2025

Signature of Chair of Governors

The policy will be reviewed June 2027
